Cabinet Secretary's Introduction

It is only right that cash seized from criminals is invested directly to improve lives, increasing opportunities for Scotland's future – our young people.

“I am keen to ensure that these opportunities continue to be provided in disadvantaged communities across Scotland.”

I am rightly proud of the Scottish Government’s unique CashBack for Communities programme – a programme that makes crime pay by seizing criminals’ cash and investing it in the young people of Scotland through sports, youth work, employability and cultural diversionary activities.

CashBack impacts on criminals and their illegal gains, reinvesting bad money for good purposes to build better, safer, healthier communities, improving facilities, running projects that in many cases would otherwise simply not have existed, and giving our young people something positive, purposeful and constructive to do.

Since becoming Cabinet Secretary for Justice, I have had the opportunity to meet with a number of young people who directly benefit from CashBack funding.

I have visited projects which range from diversionary work to more long-term potentially life-changing interventions which aim to turn an individual’s life around and provide them with the opportunity of a positive destination such as employment, education, or volunteering.

I have seen first-hand the positive impact that CashBack funded activities can have on young people and I am keen to ensure that these opportunities continue to be provided in disadvantaged communities across Scotland.

Crime brings misery to individuals and communities. It is only right that cash seized from criminals is invested directly to improve lives, increasing opportunities for Scotland’s future – our young people.

This local authority pack provides a flavour of the CashBack for Communities programme, the activities and opportunities it funds in your area and the real difference it makes to young lives.

Facilities: In 2016, the £2m CashBack for Communities Facilities Fund was launched which supported not-for-profit community-based organisations working with young people within the sports and outdoor learning sectors. Funding of up to £150,000 was available towards improvements to facilities and/or equipment in order to offer high-quality sport and physical activities which support the health and well-being of young people in areas where there is identified need. The Fund also supported revenue costs associated with the proposed opportunities to a maximum of 10% of the total amount requested.

41 community groups received funding, with investment allowing for activities such as bike parks, netball, dance, kayaking and football to be improved around the country.

Case Studies

CashBack for Communities takes funds recovered from the proceeds of crime and invests them back into young people and communities the length and breadth of Scotland.

These case studies are just a small selection of the huge number of examples where CashBack has helped to transform lives and give young people opportunities to develop new interests and skills in an enjoyable, fulfilling and supportive way.

Steven's story: Building confidence through music

Beatroute Arts is a community-based youth project in the North of Glasgow which provides opportunities for creative learning. The project helps young people to develop new skills and gain confidence. Throughout 2016, Beatroute received CashBack funding through Creative Scotland's Open Arts Fund.

Steven lacked confidence and suffered from social anxiety which meant he spent most of his time on his own in his bedroom. After finding out about Beatroute at an open day, Steven's father thought he may benefit from its programmes as he had shown an interest in, and aptitude for, playing the piano.

Beatroute arranged for Steven to take part in a "taster" piano lesson. At the taster session Steven did not make eye contact, said only "yes" and "no" and seemed acutely uncomfortable in a social environment. He continued to come to piano lessons for the next six months. Although his progression was remarkable he still showed little confidence in social situations.

When Beatroute received funding to deliver the Cashback project, staff encouraged Steven to participate and to meet other young people who enjoyed music. Steven attended almost every session. He engaged with the song-writing and composition activities and, through support from the dedicated tutors, he also developed an aptitude for other instruments such as the drums and the guitar. Over time, he became friends with other young people, some of whom attended his school, and formed two bands in which he is still an active member.

Beatroute has changed my life.

- Steven

Although it has taken a while, Steven is now a quietly confident young adult with a steady peer group both at school and at Beatroute. In his own words, Steven said that coming to Beatroute had "changed my life", saying he can now speak to other people "without feeling sick". He now demonstrates more self-confidence. Steven now walks with his head up, and will greet staff when he arrives at the project and sometimes comes in for a chat, something which would have been impossible for him in the past. He performs at Beatroute events in front of audiences, both with his bands and as an accompanist for the younger singers. He has recently taken up a volunteering role at Beatroute, acting as a mentor and supporting the workers in delivering music sessions to groups of younger participants.

Patrick meets Celtic FC manager Brendan Rodgers.

CASE STUDY – CELTIC FC FOUNDATION

Patrick's story: A sense of purpose

Patrick is one of many young people who prove that participation in CashBack Gateway to Employment can help change lives. He is now employed by Celtic FC Foundation having completed a 1-year contract with them which was funded through Community Jobs Scotland. He is progressing personally and professionally – working on a range of projects.

When Patrick was fourteen he fell in with an older crowd who were a bad influence and he gradually stopped attending school. He began drinking and taking drugs, which led to serious criminal charges including assault and robbery. Patrick was in and out of young offender's institutes and prison between the ages of fifteen and twenty-two.

“Barlinnie was hell.... It made me realise that I had to make a change for the sake of myself and my family – I was determined to break the miserable cycle of alcohol, drugs and violence.”

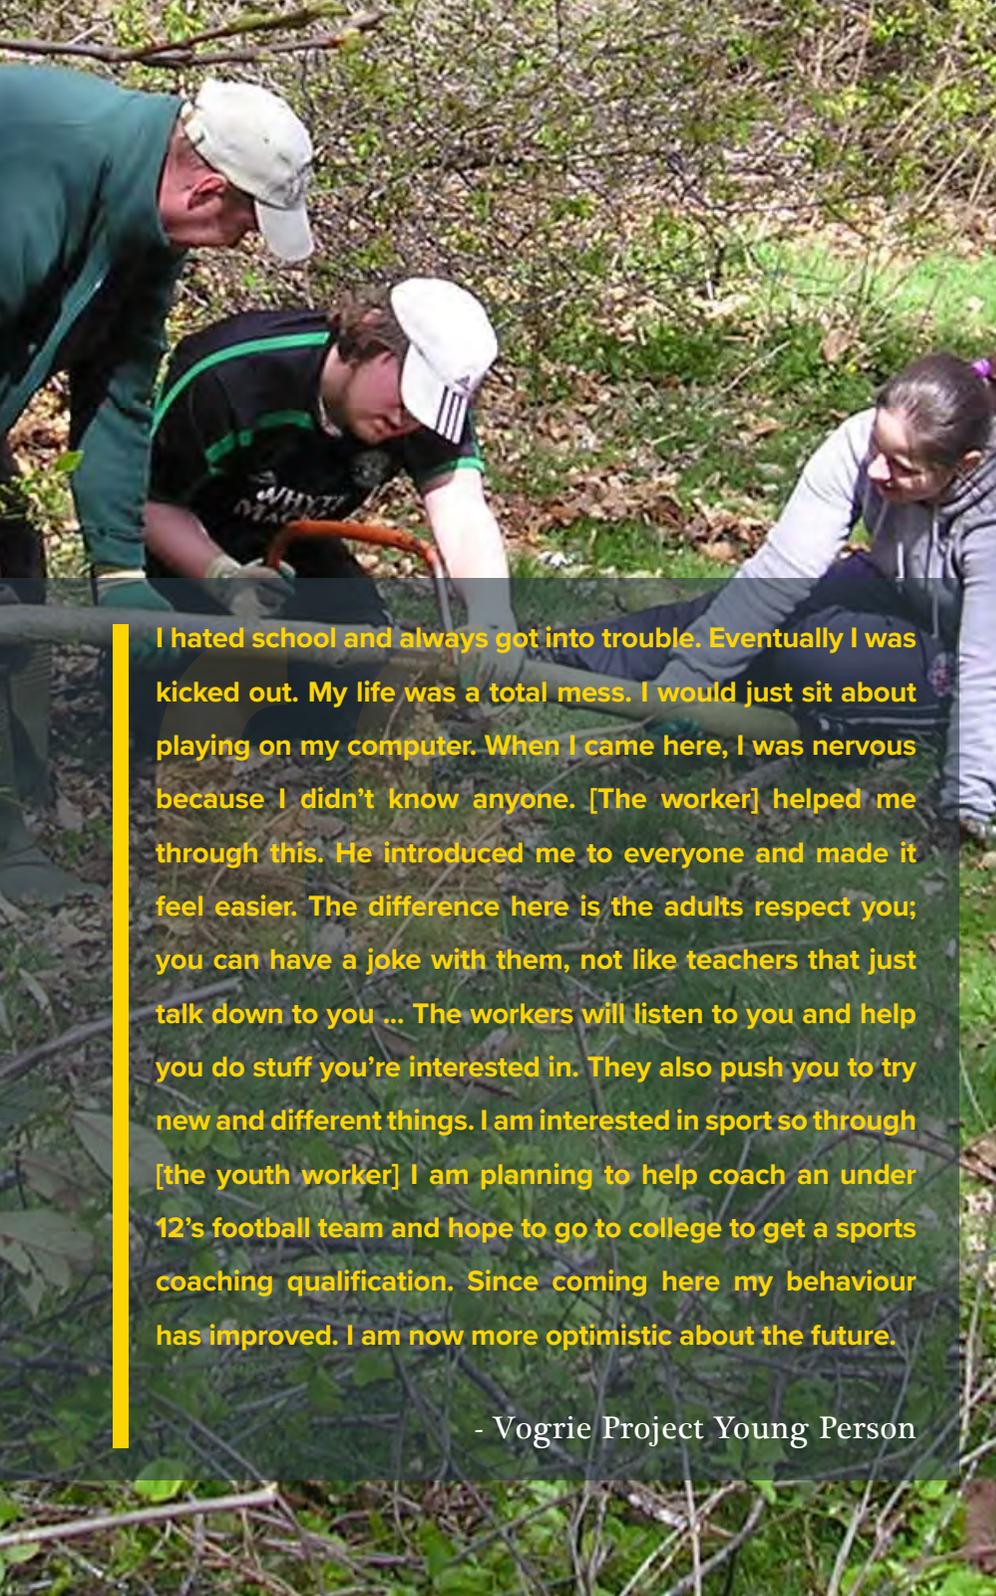

After his release from prison, Patrick heard from a friend about a course he was doing with Celtic FC Foundation. Patrick realised this could be a good opportunity for him to turn his life around and managed to secure a place on the course.

Patrick learned how to build a CV, fill in application forms and experienced mock interviews. After eight weeks participating in the project he was offered an interview for the role of community coach with Celtic FC Foundation and was successful.

Patrick has gone from strength to strength demonstrating determination, perseverance and how utilising the support around him can bring positive changes. He has now been a community coach with Celtic FC Foundation for one year. He shares his own experience with new participants on the employability courses and he now looks forward to the future.

I have a real sense of purpose and absolutely no desire to go back to my old ways, this is the happiest I've ever been in my entire life. The opportunities have not stopped for me either... For the first time in my life, I am not afraid of the future – I hope the best is yet to come.

CASE STUDY – YOUTHLINK SCOTLAND

The Vogrie Project: Nurturing in nature

The Vogrie Project ran from 2014 to 2017. It supported 60 young people, and received just over £8,500 of funding from the CashBack Youth Work Fund.

The project idea came about through a discussion with young people engaged in community learning and development services in Midlothian. It was found that more had to be done to successfully capture and sustain the involvement of young people at risk of offending or other negative social outcomes. The ‘Letting Nature Nurture’ project was set up, using the outdoors as a way of nurturing young people’s positive characters and strengths.

Young people are collected and taken to different woodland locations where they learn to safely use the tools and crafts needed for working in horticulture and woodland management. Through team

and individual coaching and mentoring, relationships are formed with youth workers. The focus is on nurturing positive characteristics such as respect for self and others, risk management, time-keeping, commitment, team work and a love of nature.

The Vogrie Project is a high-intensity diversionary youth work project that aims to provide young people with outdoor learning and skills development experience. It aims to contribute to the following CashBack outcomes:

- Increased participation by difficult-to-engage and equalities groups;
- Increased opportunities to develop interests and skills;
- Greater confidence and self-esteem among young people; and
- More young people achieving accreditation for their learning.

I hated school and always got into trouble. Eventually I was kicked out. My life was a total mess. I would just sit about playing on my computer. When I came here, I was nervous because I didn't know anyone. [The worker] helped me through this. He introduced me to everyone and made it feel easier. The difference here is the adults respect you; you can have a joke with them, not like teachers that just talk down to you ... The workers will listen to you and help you do stuff you're interested in. They also push you to try new and different things. I am interested in sport so through [the youth worker] I am planning to help coach an under 12's football team and hope to go to college to get a sports coaching qualification. Since coming here my behaviour has improved. I am now more optimistic about the future.

Greg's story: Giving back

They helped me and it was a massive thing. They got me a new family. My mum went back to Poland and left me alone. They helped me so much, so I wanted to give them something back, so I offered to volunteer for them.

- Greg

Shell Twilight Basketball is a national programme run by Scottish Sports Futures. It provides basketball sessions infused with education and life-skills. Sessions are free and available for all 11-21 years olds.

Greg moved to Glasgow with his mum from Poland. Their relationship broke down when Greg's mum met a new partner and returned to Poland leaving Greg alone.

Greg was encouraged by his school friends to join them at a Shell Twilight Basketball session. He enjoyed it so much that he hardly missed a session in the three years of attending. One of the biggest benefits of Shell Twilight Basketball for Greg has been making new friends.

Greg's coach noticed that he started coming to Shell Twilight Basketball sessions in what he described as, 'a bad state' in terms of this appearance and clothes. The coaches were concerned about Greg and as they got to know

him better, he 'opened up to them' and told them about his situation at home. The Shell Twilight Basketball project coordinator contacted social services to help Greg get support.

Greg has a new arrangement where he lives with the family of one of his friends from Shell Twilight Basketball. He has been living there for three years. The support that Shell Twilight Basketball was able to provide Greg with has given him a new lease of life, and in return, Greg volunteers as a coach at every session.

Greg has been through referee training and is now paid to referee at basketball games across the country. He also recently took on the role of a Shell Twilight Basketball Ambassador, organising and supporting events and plans to continue coaching at Shell Twilight Basketball. Greg's coach nominated him for a SSF award for dedication in personal development – and Greg won!

High school wasn't for me, but on the boat I felt like I'd found my purpose. It's cemented that this is what I want to do with my life - I want to work with sailing charities.

- Emma-May

CASE STUDY – OCEAN YOUTH TRUST SCOTLAND

Emma-May's story: wind in her sails

Ocean Youth Trust Scotland is a world-leading youth work charity. It delivers an annual programme of residential youth work voyages aboard its fleet of sail training vessels.

Emma-May's first voyage with OYT Scotland was through her young carer's group. She was busy caring for two family members and going to school, but was keen to try something new.

Prior to engaging with OYT Scotland, Emma-May was not sure what she wanted to do with her life. She sometimes felt overwhelmed and did not have all the support she needed to balance school and her caring responsibilities.

"There was a lot of pressure on me to be a young carer and to be at school. At school they didn't really understand or know what I needed. OYT [Scotland] definitely understand what kind of support I need and they know exactly how to support me." The voyage had a profound impact on Emma-May and sparked an interest which has led to her pursuing sailing as

a career. After returning from the first trip, Emma-May took up every possible opportunity to sail with OYT Scotland and has completed Bosun training and the Young Leader's Development programme.

Emma-May notes that her confidence and self-esteem increased greatly. She feels this was mainly down to the support of the staff and finally feeling she had found something she enjoyed doing and was good at.

After school, Emma-May went on to complete an HNC at college, fitting sail training in at every spare moment. She now volunteers full-time with OYT Scotland as part of a cadetship. She is hoping that once this is complete she will be able to work as an employee and continue a career in sailing.

She feels very positive about the future and excited about the possibilities that lie ahead.

Impact Evaluation

of the CashBack for Communities Programme 2014 - 2017*

Participation

Approximately **357,000** young people overall were involved in Phase 3. There is evidence that at least **107,000** young people took part in culture, employability, youth work and sport for change activity, with an estimate of **250,000** involved through sporting activities. In addition, more than **13,600** young people use CashBack-funded facilities each week.

Targeting deprived areas

Supporting those in need, across the following CashBack themes:

- **Employability** – 46% of participants were from top 15% SIMD;
- **Sport for Change** – at least 30% of participants were in top 15% SIMD;
- **Culture** – 35 to 39% of participants were in top 20% SIMD;
- **Youth work** – for Youth Work Fund and for Smalls Grants Scheme, 32% and 14 to 18% of delivery was in top 20% SIMD.

Between Employability, Sport for Change, Culture and Youth Work **32,500** of the 107,000 (around 30%) total young people across Phase 3 were from **top 15% or 20% SIMD areas**.

- **Sport** – Schools of Football, Rugby and Basketball were targeted at schools in the more deprived parts of Scotland, and diversionary activities such as Midnight League involved around **4,700** young people on a weekly basis;
- **Facilities** – increasing focus on supporting facilities in the most disadvantaged parts of Scotland. In the 2016/17 round of funding, **36%** of awards made by the Facilities Fund went to capital projects in top 20% SIMD.

Lessons learned from the Programme

- **Focus** – partners have learned that focusing more on targeted interventions, rather than mass participation, can help to ensure that key CashBack target groups are involved and that outcomes can be measured more effectively.
- **Monitoring and evaluation** – lessons have been learned about the need for clarity about the intended outcomes, indicators and reporting arrangements for each partner from the outset and this learning has been built into Phase 4.
- **Gender balance** – more young men than young women benefit from the CashBack opportunities. Some individual partners have explored this as they move into Phase 4 and it will be considered at programme level.
- **Informing Phase 4** – The lessons learned during Phase 3, particularly in relation to focus, monitoring and evaluation, have been built into the planning and delivery of Phase 4. This includes some partners focusing their activities on more targeted interventions rather than mass participation, and the development of a focused logic model with associated indicators to inform the whole of Phase 4 from application to reporting.

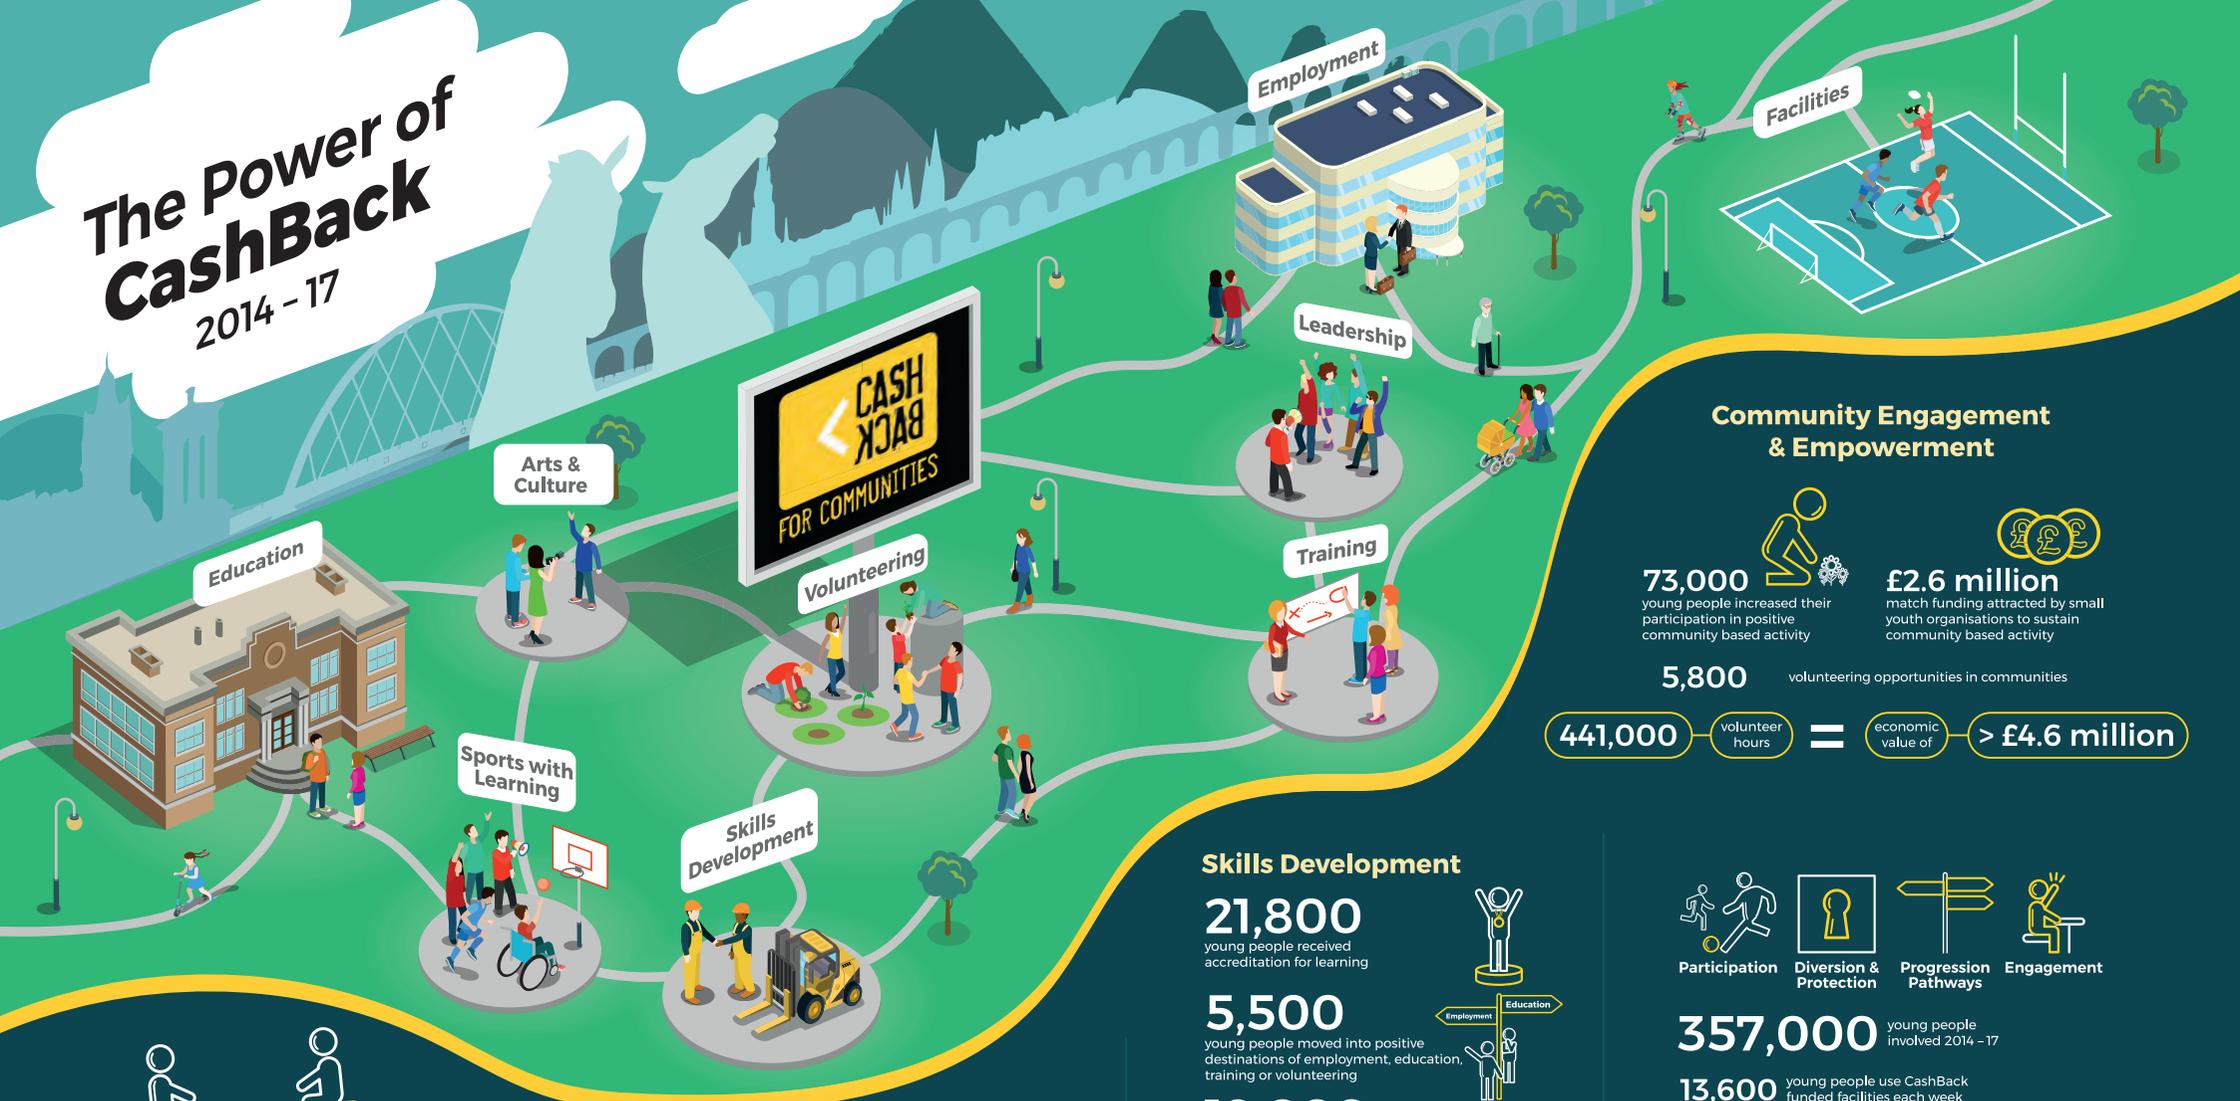

Successful approaches

CashBack partners identified key ways of working which contributed towards positive outcomes during Phase 3:

- Working in partnership – including within the CashBack family;
- Having an approachable, committed and highly-skilled staff team;
- Targeting the CashBack priority groups proactively;
- Engaging with young people over a relatively long period;
- Taking a flexible approach which involves young people; and
- Recognising and celebrating young people's success.

Activity number represents the number of activities and opportunities that young people have taken advantage of as a result of CashBack funding. It should be noted that CashBack partners may have worked with some of the same young people over a number of years. Therefore the total annual activity and opportunity figures might not directly correlate to the number of individual young people who have been involved with CashBack. CashBack Facilities Fund spend is not included above, but rather the table reflect core project delivery programmes. Where applicable, CashBack Facilities Fund projects are described later within the detailed breakdown below.
