Partners supporting young people in Perth and Kinross

Ocean Youth Trust Scotland

Access to Industry

Access to Industry's CashBack Passport project engages young people aged 16-25 in custody prior to liberation, and through community outreach in four local areas, to build on their employability skills. Participants have moved to 28 local authorities across Scotland after liberation, including Perth and Kinross.

S first connected with CashBack Passport while serving a short-term sentence at His Majesty's Young Offenders Institution Polmont.

While in Polmont, S completed training certifications with the support of the CashBack team, and prepared a CV and letter of disclosure. On release, he began working with a community caseworker.

CashBack Passport participants have access to a personal caseworker in their community. Their caseworker works with the participant to agree an action plan, and take up activities and services to get the widest range of support available.

The team supported S to get in touch with a recruitment agency, and he secured work in construction.

"The support has helped me a lot and if it wasn't for the support inside and outside the jail, I prob wouldn't be working so it's helped me a lot thank you."

On release from Polmont, S moved back into the family home. He is successfully adjusting to life in the community, and adhering to his curfew. He is grateful for the support both in prison and the community, and the staff who helped him reach a positive destination.

Case study: Sarah's story

Barnardo's Scotland

Barnardo's deliver HEAD2WORK in Perth and Kinross. It is an integrated personal development, health and employability project for young people aged 14-21.

When Sarah joined, she was no longer enjoying education and only attending part-time.

Sarah lives in a rural area and her confidence was low, so the team introduced Sarah to group work to support her journey into work.

The team supported Sarah to update her CV and achieve qualifications in money management and wellbeing. She also took part in group volunteering sessions in the community.

Sarah showed **resilience** in applying for jobs after having her share of knockbacks, and the team continued to provide aftercare support.

Recently, she was successful and started her new role at a large retailer nearby.
